River Falls, Wisconsin 54022
RE: Sterling Ponds Corporate Park

Dear Keri,

This letter is in response to your request for information on the availability of service at the above listed project, location or development by AT&T

This letter acknowledges that the above referenced listed project, location, or development is located in an area served by AT&T. Any service arrangements for the listed project, location, or development will be subject to later discussions and agreements between the developer and AT&T. Please be advised that this letter is not a commitment by AT&T to provide service to project, location or development.

AT&T does have fiber optic cable to an existing building in the Park and fiber optic service can be built out to any of the business addresses upon receiving an order.

Fiber optic service is based off what the customer is willing to pay for. Current offerings are up to 5MB to 100G or higher. AT&T sales or authorized vendors will need to be contacted to order service to the above mentioned Corporate Park.

Please contact me at the email or phone number included in this letter with any questions.

Thank you for contacting AT&T

Sincerely,

Brian Scholz
Design Manager - OSP Planning and Engineering Design
